Idea

My project is a poster series highlighting four young Catholics who are on their way to sainthood. They all lived short, and in many ways, ordinary lives. However, during their short time on earth, they displayed heroic virtue and faithfulness to God amid great suffering. I wanted to explore the topic of finding joy in your suffering and highlight that while we are not guaranteed a long life, we can live a life of purpose with the time we have.

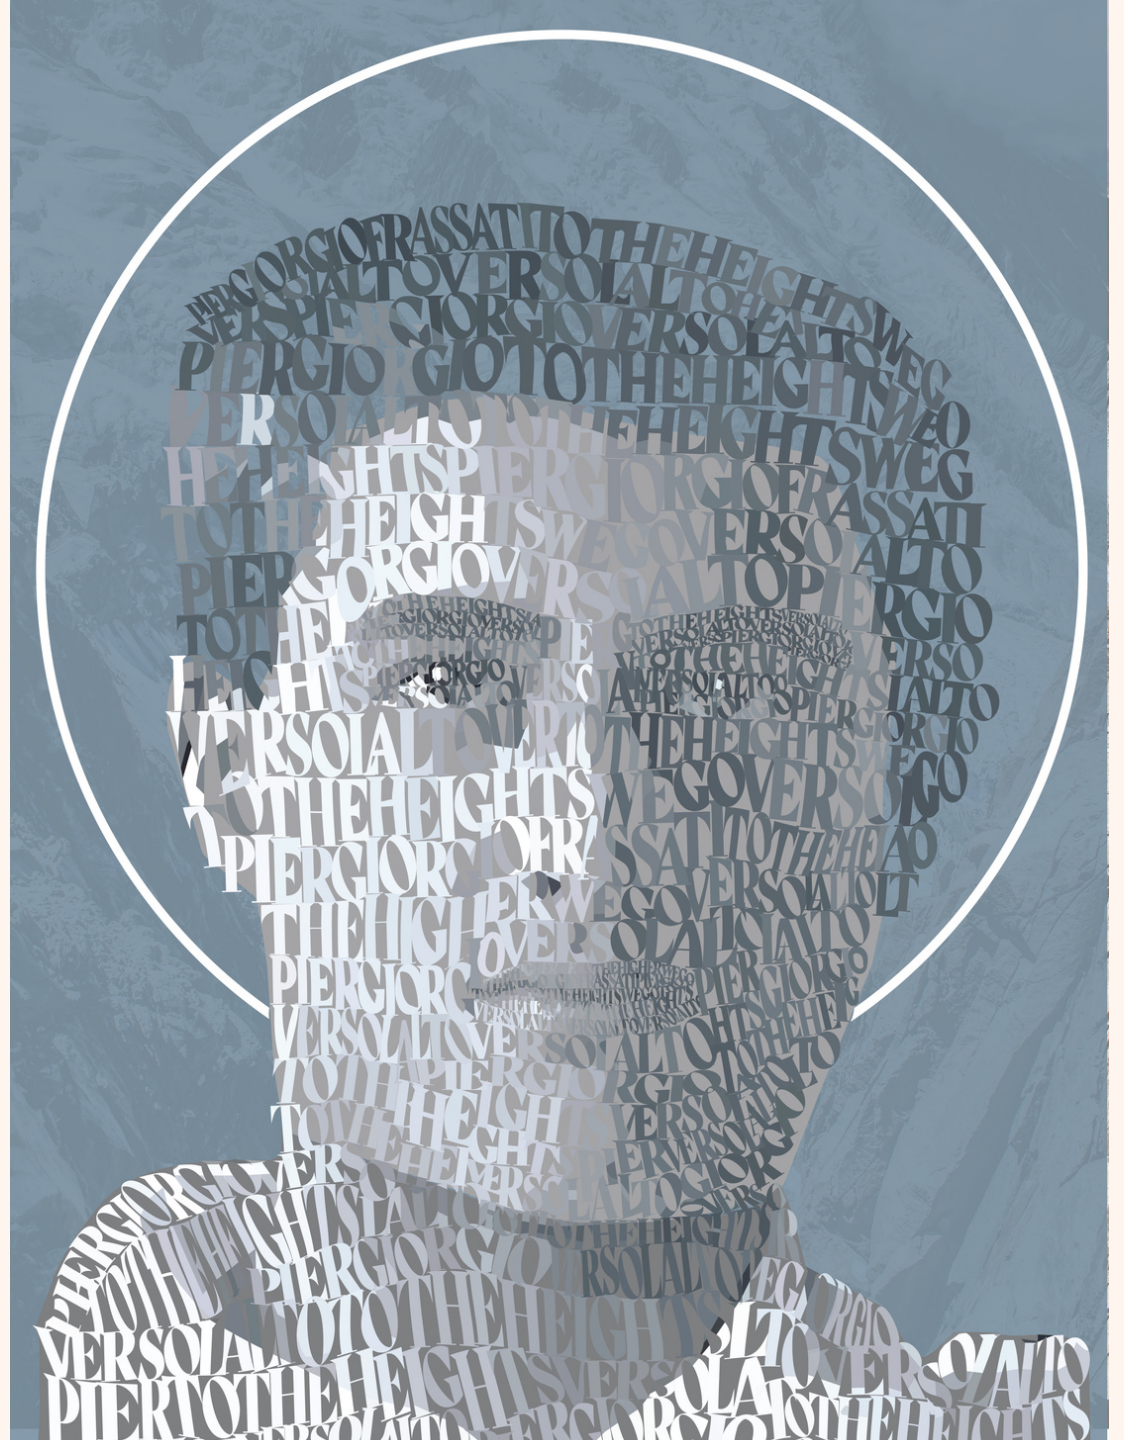

Design Process

Type as Image Portraits

I designed 4 portraits of each blessed in the style of type as image. I used words and quotes that related to each blessed's life to make up a portrait of them. Each portrait has texture in the background to better exemplify who they are and share their story.

Informational Bios and Quotes

I designed 4 informational posters to tell each of their life stories, and 4 posters of quotes from each blessed. I focused on typography, layout, and colors to brand all of the posters together in a cohesive design.

To inspire...

I selected specific quotes from each blessed that spoke to me and exemplify who they are and that show a glimpse into their story.

These four modern Blesseds are great examples of what it means to live life to the full.

I wanted to share their stories so that others can be inspired to live a life pursuing sainthood.

I have nothing left, but I still have my *heart*, and with that I can always *love*.
